

# Halloween Rules Project

Unit 3: HTML

**Purpose:** To demonstrate ability to use images and videos on a web page

**Instructions:**

1. Create a simple web page using html code. Use **external** CSS formatting using either Class or ID.
2. Create a title: Halloween Rules. Make the page heading a link to its history.  
(<http://www.history.com/topics/halloween/history-of-halloween>)
3. Use Halloween theme colors and fonts.
4. Include a horizontal line after the page heading with a width of at least 5px.
5. Follow all the stated formatting features as noted on this page and the following guidelines:
  - a) Replace the words that are **ALL CAPS AND BOLD** with an actual image of the candy bar name.  
For example: delete the word **WHOPPERS** and put a picture of the candy like the one shown here. All images should easily display the candy name.
  - b) Save all images into your folder. Use the entire path with linking the image.
  - c) Your choice of either bullet or numbered list.
  - d) Add the source for each image to the ALT tag for the image.
  - e) Add for each image the hoover over option to display the name of the candy.
  - f) Adjust the height or width of each image to fit your page.
  - g) Add a border to at least 3 images.
  - h) Include a blank line on your web site as noted on the page below.
6. Create a table with 2 columns and a nice border.
7. On the 1<sup>st</sup> column, place a Halloween video.
8. Include the author statement with name and date that is centered in the 2<sup>nd</sup> column of the table, plus a Halloween podcast.
9. Save these 2 files in your home directory as "*YourName\_HalloweenRules.html*" and "*YourName\_HalloweenRules.css*".
10. When you finish, place these 2 files in the Halloween Rules Dropbox.

## A Halloween CANDY message for kids

---

**WHATCHAMACALLIT**, Halloween is coming soon. Here are a few rules for happy haunting.

1. You may want to wear a funny costume that will make people **SNICKER**. Some of you might want to dress up like a man from **MARS** or perhaps even a **KITKAT**. Just be sure that you wear a costume that allows you to see clearly.
2. Take an adult with you to help you cross the **ROCKY ROAD**. Perhaps your **SUGAR DADDY** will come along.
3. Be polite, don't act like **NERDS** and drive people **BONKERS**. Be a little **SWEET-TARTS** and say "thank you."
4. Take a flashlight along to light your **MILKY WAY** then you won't fall and **CHUNCH** or **KRACKEL** your body into **100 GRAND** pieces.
5. When you have finally arrived back home with all your loot, you will realize you have had a big **PAYDAY**. You will be in a state of complete **ALMOND JOY**. Before you eat your goodies, have a **BIG HUNK** of an adult check your treats.

HUGS AND KISSES, (Use the candies)

The great pumpkin (Use pumpkin candies.)
